THE LEGENDARY BAMBI BUCKET

SEI Industries Ltd. first introduced the original Bambi Bucket® to the firefighting community in 1982. This lightweight, strong, flexible firefighting bucket, with its relatively low-cost 'plug-n-play' became the world's first, fully collapsible aerial firefighting bucket. By combining the Bambi Bucket with SEI's already-existing water storage tanks and bladder bladder products (FireFlex) for fire suppression, a sought after and valuable product line was created

INDUSTRY STANDARD

Today, more than 35 years later, SEI services 95% of the world's aerial firefighting water bucket market. Globally, the Bambi Bucket brand is known amongst firefighting agencies and Bambi Buc has become synonymous with aerial firefighting. The legendary Bambi Bucket is now used in more than 120 countries around the world by more than 1,000 helicopter operators.

- simple technology
- fully collapsible and lightweight
- single, full salvo drop
- foam/gel/retardant compatible
- available with PowerFill option

BAMBI MAX

SAFETY AND ACCURACY IN THE PALM OF YOUR HAND.

"With more than 8,000 hours and more than 25 wildfire seasons I consider the Bambi Max the best product for the fight against wildfires."

In the process of innovation, Bambi Max provides safety and effectiveness when working on wildfires."

-Agustin Baigorri
CHIEF PILOT
COYOTAIR,
SPAIN

Bambi *MAX*

- manual time on trigger or automatic Bambi Master Controller.
- unlimited load shedding.
- low power draw, 3-wire system
- low maintenance
- available with PowerFill, Sacksafoam, and Bambi Master Controller.

POWERFILL

PowerFill Snorkel

Bambi PowerFill snorkel is one of the most sought after add-on accessories for the Bambi Bucket product line. Now with a quick-release connection, you can take it on and off within seconds.

PowerFill technology allows users to fill their Bambi Buckets in shallow water sources where dry summer conditions limit dip site possibilities. Only 18 inches (46 cm) of water is required to pull water from the bottom up.

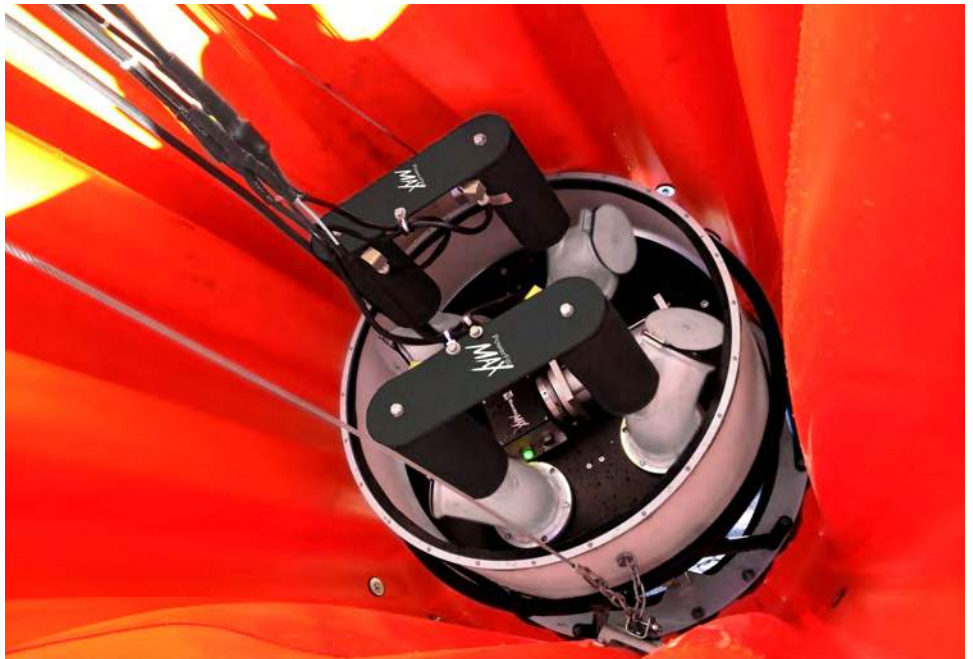

PowerFill **MAX**

The Bambi Max also comes with a 2-pump or 4-pump internal configuration. This bottom filling technology provides fill rates of 900 to 1800 US gallons per minute. Retrofit kits available to convert your Bambi Max to PowerFill Max.

Contact one of our reps for more information.

BAMBI MASTER CONTROLLER (BMC)

- 5.7" 640x480 LCD with resistive touch screen user interface
- cockpit installed, pilot or crew operated
- pre-select bucket functionality during pre-flight or change on the fly
- intuitive logic, highly visible, user-friendly, touch screen display
- one controller actuates bucket valve, dispenses foam, activates Powerfill™ pumps
- allows for automatic load shedding via preselect volume control
- enables partial valve openings to extend drop (coverage level control)
- download data from controller memory and export to Excel or flight following software

* compatible with Bambi Max buckets only

Sacksafoam Bladder (SF1)

The Sacksafoam Bladder is designed to be easily installed inside all Bambi Buckets. The built-in pump allows for accurate foam distribution, avoiding foam waste, and creating more foam-filled drops.

Sacksafoam Heli-Case (SFX)

The SFX is designed to be installed and strapped down inside helicopters to supply foam concentrate through a line attached to the bucket. The Heli-Case gives more control to the pilot or crew on board, allowing each load to be filled precisely with foam. The SFX will hold up to 25 USG (95 Litres) of foam concentrate. Compatible with bucket models 2024-HL5000

*Sacksafoam Plus available for additional foam concentrate
40 USG/151 Liter*

POWER PACK/MOBILITY SLED

CALL FOR INFO ON BAMBI LONGLINES
North America: 1.866.570.3473
International: 1.866.43 BAMBI

Bambi PowerPack™

A portable, rechargeable power supply used with Bambi Bucket and Bambi MAX that allows for 10 hours of continuous operation on a fuel charge. Bambi PowerPack works independently of the helicopter power supply. Recharge to 100% in 2-hours.

Mobility Sled™

Convenient one person operation with a rugged lightweight design. Four-wheeled aluminium mobility sled comes equipped with 16" foam filled, all-terrain tires, tow bar and a braking system. Can be quickly dismantled for shipping. Roll, winch and go!
